DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3 drawn to a method within a telecommunications switch, classified in class 705, subclass 11.
 - II. Claims 4-11, drawn to a method within a time keeping and expense tracking server that generates GUI screens, classified in class 345, subclass 335.
 - III. Claims 12-15, drawn to a server, classified in class 710, subclass 129.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group III and Groups I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the Group II product may be used for tracking solar energy related performance and expenses.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II or III, nor is the Group II search required for Group III, restriction for examination purposes as indicated is proper.

5. A telephone call was made to James A Harrison (Reg. No. 40,401) on Thursday March 27, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Applicant is advised upon election to particularly point out where support for such an election is found in the descriptive portion of the specification and drawings.
